RFID – Find Right Solution For You!!

F i n d i n g S o l u t i o n s F o r A l l

About Us

Syncroft Solutions was established to provide leading edge RFID solutions to businesses and organizations in order to help them overcome problems associated with tracking of equipment, personnel and inventory. Founded in 2006, the company is focused on providing complete RFID solutions

Our engineering team, comprises of highly experienced hardware and software engineers from the RFID, Embedded & Software industry, has developed RFID technology that is able to keep track of any activity associated with RFID tagged equipment, personnel and inventory in real time. Our RFID system will identify and keep track of goods located in any place within the warehouse or any other part of the building that the system is installed. Our staff has also developed RFID solutions to the security issues that most concern end users.

Our management team consists of young and dynamic professionals with high-tech profile in software, hardware, RF technology, corporate development, and marketing.

Syncroft Solutions is aiming itself as a leader in creating a total RFID solution specifically targeted toward our customers' needs. We are sure that you will also join our venture in this exciting and versatile technology.

RFID- Library Management

RFID-based systems move beyond security to become tracking systems that combine security with more efficient tracking of materials throughout the library, including easier and faster charge and discharge, inventorying, and materials handling.

Features

- ✦ Anti theft Detection
- ✦ Shelf Management

- ✦ Fast Counter Services
- ✦ Book Drop Facility
- ✦ Self Check In/Out

Benefits

- ✦ Reduces the amount of time required to perform circulation operations.
- ✦ High Reliability
- ✦ Ability to scan books on the shelves without tipping them out or removing them.
- ✦ Long Lasting System
- ✦ 100,000 transactions per tag

RFID- Retail & Warehouses

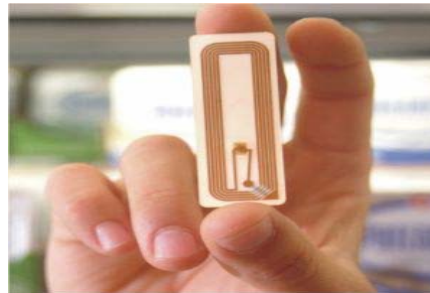

Manufacturers, retailers and logistics providers are making unprecedented use of RFID technology to track, secure and manage items from the time they are raw materials through the entire life of the product.

Manufacturers can especially benefit from RFID because the technology can make internal processes more efficient and improve supply chain responsiveness.

Features

- ✚ Total Asset Visibility
- ✚ Easy Stock Taking
- ✚ High level Security

- ✚ Automatic Billing
- ✚ Restocking Alerts
- ✚ Self Checkout

Benefits

- ✚ 99.9% Inventory Accuracy
- ✚ Shorter wait times and better shopping experience.
- ✚ Efficient Store procedures
- ✚ Improved Customer Service
- ✚ Value added Services
- ✚ Low Labour Cost

RFID- Resorts & Hotels

In the highly competitive hospitality industry, revenues are driven by guest satisfaction and brand loyalty. Creating a unique and enticing environment for guests is an effective way to enhance overall guest experience.

Features

- ✚ Cashless POS
- ✚ Keyless Entry
- ✚ RFID Park Pass & ID

- ✚ Vehicle Access Control
- ✚ Automated Billing
- ✚ Patron Identification

Benefits

- ✚ Any environment—wet or dry, day or night
- ✚ Age verification, tracking, and access control.
- ✚ Improved Customer Service
- ✚ Value added Services
- ✚ Improves system efficiency

RFID- Asset Tracking

Tracking company assets can be a real chore and if not done correctly can cost businesses a lot of money in misplaced items resulting in higher overhead.

Syncroft's RFID system provides real-time visibility into asset locations. It also deters and prevents the theft of physical assets which hold confidential information and personal records.

Features

- Employee Check In/Out
- Location Tracking
- Anti Theft Alarming

- Networking Ability
- Multi Tag Reading
- Report Generation

Benefits

- Real Time Visibility
- Easy Traceability
- Real Time Audit
- Improves Security
- Monitor Activities
- Access Control

RFID- Hospital Management

RFID applications in the healthcare industry are focused on patient safety (identification and medication administration), business flow management, and asset/equipment management.

Implementing RFID technology will ensure the basic rights of medical safety: right patient, right drug, right dose, right route and right time

Features

- ✚ Patient Tracking
- ✚ Equipment Tracking
- ✚ For Blood Banks

- ✚ Baby Tagging
- ✚ Automated Billing
- ✚ Vehicle Access Control

Benefits

- ✚ Real Time Visibility
- ✚ Improves Security
- ✚ Real Time Audit
- ✚ Easy Traceability
- ✚ Monitor Activities
- ✚ Authorized Access
