

PARIS, a multi-user web based time and attendance system designed to automate employee time and attendance for small- to medium-sized businesses.

PARIS software can be customized to your business needs and is scalable to grow as your business grows. It dramatically reduces the number of hours it takes to process employee timekeeping.

PARIS works with a variety of employee time clocks, allowing you to choose the optimum way to capture employee time. Choose from biometric (fingerprint) or badge-based clocks. PARIS is ideal for a wide range of industries where hourly and salaried employee time needs to be tracked including: manufacturing, warehouse & distribution, healthcare, retail, professional and medical offices, government and educational agencies.

PARIS's capabilities give you control over lost time and productivity, which can have a significant impact on your company's profitability. A study shows that by adapting an automated time and attendance system, companies can realize up to a 4% savings of their annual payroll expense.

PARIS solutions provide business owners, HR and payroll administrators an easy way to gain control of employee time.

Manage Punch Data

Managers can correct employee punch data before it reaches the payroll process

Real Time In/Out

You can tell who's in and who's out at a glance

Leave Rules

Configure how your employees can apply for leave

Role Based Login
